

TOWN of TOLLAND / 21 Tolland Green, Tolland Connecticut 06084

Tolland Water Commission

September 26, 2023

**** FLUSHING NOTICE ****

Dear Customer:

The Town water mains will be flushed October 16-20th and October 23-25th, 2023 between the hours of 9 AM and 3 PM. The flushing is performed to remove both air and naturally occurring minerals from the mains, helping to maintain and improve water quality.

It is possible that you will experience lower than normal water pressure during part of this time and the water may be discolored for a day or two following the flushing. The discoloration is caused by minerals and sediment in the water and is not harmful. However, it may stain clothes if you do laundry. Avoid using washing machines, dishwashers or other water-using devices during flushing operations. Any sediment that enters the home piping will normally be flushed out in a day or two. Faucet aerators can trap sediment. Kitchen and bathroom faucet aerators can be unscrewed and rinsed to remove the trapped sediment.

The reverse side of this letter has the tentative schedule by streets and neighborhoods: we will post this plus changes that are needed on the Water Commission web site at

<http://www.tolland.org/tolland-water-commission> to enable customers to better plan. This information will also be available by calling the Water Commission office at 860-871-3680 or the Commission's operations contractor, an affiliate of Connecticut Water Company, at (800) 286-5700 (toll free). Please note CWC vehicles and personnel, will be identified as such.

This scheduled system maintenance is a part of the efforts to deliver the best possible water quality to your home or enterprise.

Sincerely,

Tolland Water Commission

The planned flushing schedule is on the back of this page.
