4. NEW BUSINESS - ACTION/DISCUSSION ITEMS

- 4.1 RECOMMEND TO TOWN COUNCIL TO CONSIDER FUNDING FOR THE PARKS FACILITY GARAGE IMPROVEMENTS. RECOMMEND TOTAL AVAILABLE BALANCE IN ARPA AFTER OTHER PROJECT CLOSEOUTS FOR THIS PROJECT.

L. Hancock discussed the idea of the ARPA fund to remove the Facilities Garage Improvements from the Capital plan and recommend to Town Council to approve the use of the remaining balance in the fund to move forward with the project. The project has been in the Capital Improvement Plan with bonding as the intended bonding source. She stated that if we were to remove the \$1.2 million amount from our debt management plan, we would save \$504,000 in interest costs over the 20-year life of the bonding. This project would cost with interest \$1,704,000. If we were to use ARPA funds we would not have to spend the additional \$504,000 in interest expense. She discussed that in Fiscal Year 2025-26 our annual debt payment would be reduced by \$24,000 and then significantly higher amount in the next few years. We will still not be able to reduce the annual budget of \$4.7 Million next year, however, our debt will begin falling off much faster in order to reallocate the budget in the future towards pay-as-you-go projects. She reviewed the debt analysis spreadsheet, that was part of the packet, with the annual breakdown of the differences.

Public Works Director, Scott Lappen, reviewed how the project could be moved forward in a quick manner in order to meet the December 31, 2024 deadline for ARPA fund use. He stated that the current facilities building would be retained for cold storage. He discussed the location and requirements for the project. There are hopes of being able to use an old well if possible. The plan would double the size of the building. The front half would be the supervisor's office, a crew meeting area, lunchroom and rest area for staff during any emergency storm or other emergency event. He discussed the type of recommended construction. He recommends that the Town would be the general contractor for the project. He feels that if the Town acted as General Contractor, that there would be no issue with meeting the December 2024 ARPA deadline and completed by December 2026. VC Marie likes the idea for the use of the ARPA funds for this purpose.

C. Yudichak suggested that the Town Council might consider a building committee for the project. B. Foley doesn't feel that it is a simple project and does not feel that it is necessary for a building committee. S. Lappen feels that a building committee might cause delays for the project and has a concern of being able to meet the deadline. He recommends that the Town be the General

Contractor. It would allow for him to hire various contractors for framing, concrete, electrical, plumbing to be able to get everything in motion quickly. He compared this building to the new pole shed which came in under budget and was erected very efficiently and cost effectively.

L. Hancock motioned to recommend to Town Council the use of ARPA funding for the Parks Facilities Garage Improvement project for up to \$1.2 million or the balance of the ARPA fund, whichever is less. Motion was seconded by VC. Marie. Motion carried unanimously.

4.2 MOTION TO CANCEL THE MARCH 28, 2024 ARPA MEETING. C. Yudichak discussed that the March 28, 2024 meeting would be during early closing for Town Hall due to the Good Friday Holiday. L. Hancock motioned to cancel the March 28, 2024 meeting. Seconded by B. Foley. Motion carried unanimously.

## 5. OLD BUSINESS - ACTION/DISCUSSION ITEMS

### 5.1 REVIEW OF THE SPREADSHEET

L. Hancock discussed the status of the various projects on the spreadsheet. VC. Marie questioned if future meetings should be cancelled. C. Yudichak stated that it will be taken one meeting at a time for now and she will discuss with him if it is necessary to cancel in the future.

## 6. ADJOURNMENT

VC. Marie motioned to adjourn at 5:12 pm. Seconded by b. Foley. Motion carried unanimously.

11/15/2023	Restore cuts in public services caused by pandemic induced revenue losses and avoid additional cuts	For the current Fiscal Year, we budgeted \$60,000.00 for the replacement of the Highway Garage Generator and \$20,000.00 to retrofit the used generator from the Senior Center to provide emergency power to the Parks & Facilities Garage. The Proposal for the Highway Generator came in at \$63,173.00 and the Parks Generator came in at \$52,573.00 leaving us negative by \$35,746.00. The Contractor that we use to service our generator's said that he would like to take the Senior Center Generator to his shop to go through it to be sure that it is in good working order before they install it, which will probably cost us \$1,500.00 - \$2,000.00 for that service. In total we will be short \$37,746.00 for this Project. I would like to request that \$40,000.00 be funded through ARPA funds to cover these shortages. If this is not an acceptable option, I would like to create an additional request through our Capital Equipment Budget for the upcoming year to cover this shortage. Thank you for your consideration. <b>Charged directly to ARPA Fund.</b>	Scott Lappen	Yes	no		1/9/2024	Yes	40,000.00	40,000.00	yes		1,185,801.45	In Progress

3/28/2024	Restore cuts in public services caused by pandemic induced revenue losses and avoid additional cuts	Bruce Watt is requesting a water fountain to be installed at Crandall Pond. The Eco Series Floating Fountain showcases beautiful industry-leading spray patterns that outmatch other 3/4 HP and 1 HP fountains. The EcoSeries fountain operates in as little as 24" of depth. It includes an energy-efficient 1/2 HP motor, three spray patterns and a control panel. The amount requested is \$5,997.99. The items are as follows: Airmax EcoSeries .5HP Fountain - 3 pattern with control panel \$1,995; Powercord for Airmax EcoSeries .5 HP Fountain - 400 foot. \$2,352.99; and Estimated Electrical work \$1,650.00	Bruce Watt	No Vote					5,997.99					Not Considered Yet
6/12/2023	Restore cuts in public services caused by pandemic induced revenue losses and avoid additional cuts	ADA Pathway to the solar powered-table and meeting spot for patrons to charge devices and sit outside. It is a nice spot for the table, however there's no clear accessible walkway to the table. It would be good to create an ADA path to it, and I expect it would be low-cost as it is maybe 20 feet at most from the sidewalk near the entrance to Town Hall lower lot. 3/2/2023	Restore cuts in public services caused by pandemic induced revenue losses and avoid additional cuts	On behalf of the Tolland Soccer Club, I would like to respectfully request considering using a portion of the remaining ARPA funds to install field lighting on the three soccer fields at Cross Farms. As not only the premier facility in town but also one of the top facilities in the state, this would further enhance the fields and expand their usage. Particularly during the fall season when the days get very short very quickly, it is difficult to schedule full practices for our teams. Not only would this allow full practices, but allow us to hold practices for multiple teams each night on the same field, helping to resolve our field shortage. In addition, it would also allow for night games. If the Town would fund the initial capital investment to install the lighting, the Club would pay for the annual electricity expense and contribute to the maintenance of the lights. This is a successful model that we currently use for both the lights at Crandall's Park and the irrigation systems. By doing so, we would significantly limit the recurring expense to the Town as it would be borne by the Club. Maybe also consider LED replacement project in CIP for Crandall Park and lighting for the other ball fields. (\$950,000 is only for soccer fields plus contingency)	Tolland Soccer Club: David Garritt	No Vote	Yes	Yes			950,000.00					Cancelled
