I think we approved Scott and Heidi, but both were prior to your term.

I don't think there's good reason to keep this requirement in. I'll forward the question to Steve for any thoughts he may have.

Thanks,
Bill

This means that if Steve wants to hire another Lisa, John, Scott or Mike he would need to put it to us for an approval? This is interesting. From my perspective this is a bit of micro management. I would scrap it unless Steve could present a reason why it should stay. I would certainly presume he would want it scrapped for his successors sake. If we had an issue with the manager's hires and fires that should be reflected in his or her performance review and if he or she did want to discuss hire/fire it should be done in an executive session.

Beyond that, I don't remember us ever signing off on a hire. I am trying to think who started after I was elected to Council.

Dave

Subject: Charter Revision Question

Hi guys! Happy New Year!

One of the "Charter Revision Suggestions" was the removal of Section C7-3:

" Employment decisions associated with management directly reporting to the Town Manager shall be subject to the approval of Council."

What is the Council's opinion of this suggestion?

Input would be appreciated by this Thursday (1/18)

Thank you.
