**Subject:** Charter Commission recommendation

Good afternoon Lynn,

I was told I should send this to you, to be included in consideration by the Charter Commission.

I would like the Charter Commission to consider making a change to the Town Charter that includes making the referendum vote to be two separate line items. One line item for the voters to vote for/against the Board of education budget and the other a separate line item for/against the town municipal budget.

Thank you,  
Keith Randino
