Subject: Re: Referendum Question

If you would like to ask the individual members what their opinion is concerning a particular subject, you are more than welcome to do so.

The Minutes reflect the Commissions actions, not the discussions. They are not "who said what" ...but are a reflection of the combined opinion of all of us. The Minutes have also reflected opinion from Town staff and the Town Attorney.

To return to your opening sentence, there is still the opinion "out there" that we are going to limit the number of budget referendums in the Proposed Charter Changes. We are not. And the most recent set of minutes from the Public Hearing last Thursday also reflects an answer to that question.

I am forwarding your email and my answer to the Town Secretary to be included in the correspondence packet that we all receive.

> On the 2/1 minutes it just says "This item, Sec. C9-10, was tabled. The Commission members had strong opinions on both sides. They will need to fix the timeline, and they will also seek advice from the Town Attorney. This section will be finished at a later date." There is no mention of what you actually discussed or what the opinions of the commission members were. I have printed out the minutes of other meetings where there was some feedback but would like to know what you, on the commission, discussed.
