Registrars' request for Charter changes

Chapter II Elections C2-2 Voting District

Recommended change:

Remove "by ordinance". The ordinance in question is Town Ordinance #54. (Lastest revision attached—previously established in 5-14-1996; amended 6-8-2004; amended 8-12-2008)

Background information

From time to time the registrars want to move voters from one district to another to accommodate the number of voters in each of the two polling places. Right now District 1 has 4,940 and District 2 has 5,218. By eliminating the Ordinance the Council and Registrars can more easily accomplish this without a Public hearing.

Enclosed is a map of the 3 Districts in town. The Yellow represents District 2 and the Blue represents District 1. Ballots for these two districts ARE ALWAYS THE SAME, regardless of election type. District 3 (Green) has a different Assembly District (State Representative) so for even year biennial elections District 3 has a different ballot.

§ C2-2. Voting district.

All officers of the Town who are chosen by election shall be elected at large. The Council may, from time to time, by ordinance, divide the Town into voting districts with the establishment of voting places therein.
